

REACH Declaration

April 30, 2010

ECHA REACH Guidance on requirements for substances in articles requires notification according to article 7(2), It states the requirement for notification of substances in articles as

- ❖ The substance is included in the candidate list for authorization and
- ❖ A. The substance is present in all articles produced or imported by one actor in an amount totaling over 1 ton per year (per producer or importer)
- B. The substance is present in articles above a concentration of 0.1% weight by weight (w/w)

If however, one or both of the following conditions are met, no notification is required:

- The producer or importer can exclude exposure of the substances to humans or the environment during normal or reasonable foreseeable conditions of use including disposal.
- The substance has already been registered for that use.

EOS Power India power Supplies

- ✓ Comply with RoHS specifications as per EC directive & the substances are below detection limit, not intentionally added to the article.
- ✓ Total amount of SVHC exported to EU market during a year is less than 0.15 t/a (threshold limit is 1 t/a).
- ✓ There is no exposure of the substances to humans or the environment during normal or reasonable foreseeable conditions of use including disposal.

Declaration:

EOS Power India is aware that under the REACH Regulation, which entered into force on June 1, 2007, the "manufacturer" and "importer" as well as "downstream user" of chemical substances, on their own, in preparations or in articles, that fall within the definitions of the REACH Regulation will bear certain responsibilities with respect to manufacturing, importation, placing on the market and use of chemical substances.

We hereby declare that Articles produced by EOS Power India for shipment to countries in the European Union have no intended release of substances; therefore they are REACH compliant products. As may be required in the future, we will document any substances of very high concern (SVHC) as they are adopted by the new European Chemicals Agency (ECHA).
