

EOS Power Completes Successful ISO Recertification Audits.

Mumbai, India, October 25, 2011

EOS Power is pleased to announce that company has successfully completed ISO 9001 & ISO 14001 recertification Audits by third party certification services TUV-Rheinland.

The audit involved verification of all systems, procedures and processes related to the Design, manufacturing & services. The Audit was concluded with no non conformities.

Positive findings as mentioned in Audit report are

1. Proactive Top management and staff
2. Good use of PPEs

Conclusions drawn during the audit reveals EOS's commitment to customers, environment and to the highest standard of quality. The fact that EOS has successfully completed the audits speaks about consistency of quality we offer to our customers and our efforts to improve environmental performance.

“As we move forward, we will continue to pursue opportunities to improve the quality of our products and the safety of our manufacturing process.” Said Vijay Gujarathi, Director of EOS Power.
