

New Product Release

EOS Power Announces the Release of the New M (W) LT40 & 60 Watt Open Frame AC/DC Series

Mumbai, India, October 31st 2012— EOS Power Private Ltd, the leading designer, manufacturer and seller of high efficiency power supplies and value added power solutions, announced today that it has released its new M (W) LT40 and 60 Watt Series of Medical and Commercial Open Frame AC/DC products. The M (W) LT40 and 60 Watt Series are packaged in a 2 x 4 Inch footprint and have a host of Class leading specifications without the premium cost.

The New M (W) LT40 & 60 Watt Series of open frame products maintain the same 2 x 4 inch footprint as the older M (V) LT 40 and 60 Watt products. This will allow our existing M (V) LT customers to migrate to the New M (W) LT series without having to resort to any expensive mechanical re-designs. The New 40 and 60 watt open frame series of products are available in Medical and Commercial versions with Class 1 and Class 2 options. Class leading standby power consumption rates of ≤ 0.3 Watts, sense connections, output voltage adjustability and an operating temperature range of -20°C to 70°C all come as standard.

The New M (W) LT40 and 60 Watt Series of products are approved to EN 60601-1:2006 3rd Edition (MOPP) and EN 60950-1:2006; A11; A1; A12, 2nd edition approvals respectively. All EOS products are produced in the EOS Power India manufacturing facility and are available to order today from our global distribution partners. The M (W) LT 40 and 60 Watt series of products is a further evolution of the EOS brand of high technology power solutions.
