Quality Policy Statement

EOS POWER INDIA PVT. LTD. is engaged in product design, manufacturing, and services of Switch mode Power supplies and related electronic assemblies. EOS Power has a vision to provide innovative technological solutions, products, and services to its customers.

Top management is committed to:

- Operate our ISO 13485:2016/ ISO 9001:2015 quality management system to integrate the organization, procedures, processes and resources.
- Making Quality, the responsibility of every employee within the organization by demonstrating commitment to quality and by monitoring and maintaining the effectiveness of our quality systems through business process metrics.
- Follow necessary processes and procedures for the design and development, production, storage and servicing of devices and other support services.
- Fostering an environment of continual improvement in products and processes and achieving operational efficiency by attaining better productivity and profitability.
- Improvement of Quality Management Systems by ensuring the risks and opportunities that can affect conformity of products and services and the ability to enhance customer satisfaction are determined and addressed.
- Complying with the regulatory obligation established by customer and regulatory agencies.

This policy which provides the framework for setting quality objectives shall be reviewed for continuing suitability during the management review of our quality management system. This policy is available on EOS website for the reference of interested parties.
