

SURGE FILTER ASSEMBLY

Features
<ul style="list-style-type: none"> • External PCB assembly to test power supply unit at 4KVAC Surge • For improved CE/RE emission • Rated Current Up to 2.5 A • High Conducted attenuation performance • Chassis mounting • Low Cost • Compatible with all Power supply / Systems / Electronic Equipment

Ordering Part Number	Part Number Description
CEL-22-LF00000014969	Surge Filter Assembly- For Class II
CEL-22-LF00000015102	Surge Filter Assembly- For Class I
<p>Note: Class I - can be use for Both Common mode & Differential mode. Class II - can be use only for Differential mode.</p>
