Additional information(if necessary)**Information complémentaire (si nécessaire)**

In model name, Z is 1, denoting the number of main outputs. X is any number denoting output configurations (output voltage and current ratings); Y may be FC1 to denote the specialized input/output PCB configuration used with S-type bottom Uchannel and no top enclosure cover, or any alphanumeric character or blank used to identify variants/derivatives of base model with no changes or with minor secondary changes which do not affect the safety construction, critical components list or output power rating; V may be I or blank: I denoting a power supply with the 'OR-ing' capability, and blank denoting a power supply without the 'OR-ing' capability. U may be S or T or blank: - S denoting a power supply with a side-mounted fan and enclosure cover and IEC 60320-1 type appliance inlet connector; - T denoting a power supply with a top-mounted fan and enclosure cover, and blank denoting the standard base model; only bottom U-channel type with no added fan
